

# Behavioral Health Toolkit

*Designed with the end-user in mind, this toolkit allows each Health Center to create the package that is best for you!*

**Updated Comprehensive Assessment Template with Panel Management** - Panel Management feature allows organization to move or remove panels within the template.

**Behavioral Health Monthly Services Provider Report** - This report shows the total time spent providing behavioral health services by provider with a distinction made for groups services.

**Behavioral Health Goals and Objectives** - Allows the practice users to see ALL Goals & Objectives added across all encounters and not just the current encounter.

**Billing Template & Billing Charges Report** - This solution allows members to bill multiple times and adds a start and end time with added logic to calculate unit charges.

OR

**Rollup Billing Template & Overlap Billing Report** - Provides the ability to allow multiple users to document time and submit codes for the same encounter on the same day.

## **OSIS Recommended Add-Ons:**

Psychiatric Evaluation  
OSIS MyPhrases  
OSIS Chart Checker
